## Welcome

Auto Salvage Bid.com provides auto dealers and self-insured parties a cost effective and convenient way to sell vehicles through our on line auction or fixed price sales. Our second purpose is to provide auto dealers with an extremely convenient and economical way to purchase vehicles on the Internet.

This company is exclusively an on line auction, modeled after a live auction. Auto Salvage Bid.com auctions small lots of vehicles throughout the day. The auction gives each bidder a short period of time to beat the highest bidder and reset the clock. Potentially, the highest bidder has the ability to own a vehicle in less than three minutes! Why leave the office?

Unlike a live auction, Auto Salvage Bid.com also offers the bidder, who is not available at the time of the auction, the flexibility of placing a bid through the automated bidding feature. With this feature you can become the winning bidder even while playing a round of golf!

Lastly, the company offers vehicles at fixed prices. This option gives the seller the freedom to set a fair price and move the vehicle as soon as it is posted.

We do all of the dirty work. For the seller it is as easy as picking up the phone or applying on line for our service. We take the pictures, fill out the forms and input the information for you! For the buyer there is no waiting. Just like a live auction the high bidder wins quickly. You do not have to wait for days like other auction sites to find out if you own the vehicle.

The company discloses a substantial amount of information about each vehicle to promote a high level of comfort for both the seller and the buyer. Auto Salvage Bid.com is committed to making your on line bidding experience an enjoyable one.
